

SHADE CONTROL OPTIONS

WAND CONTROL SHADES

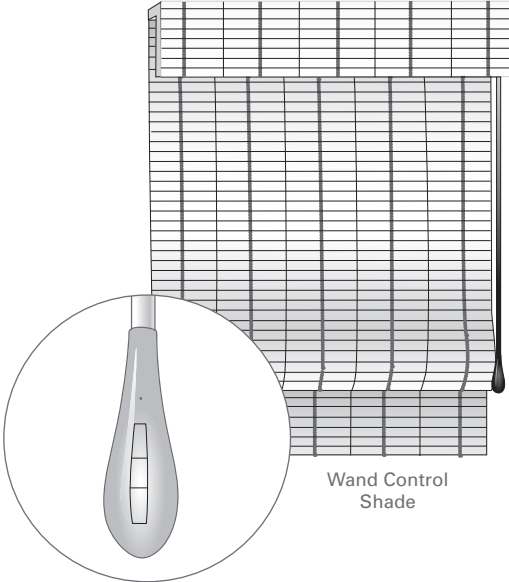

Wand control motorized shades are powered by a rechargeable lithium-ion battery. The motor is controlled using a wand which hangs down to the side of the shade.

Waterfall shades are not available to be ordered with wand control.

Wands are available in 4 lengths: 24", 36", 48", and 60". Available colors include: white, beige, gray, bronze, and black.

Wand control shade motor batteries are recharged via a mini USB power adaptor which plugs into the end of the wand.

All wand control shades will be made with shade fabric $\frac{5}{8}$ " narrower for inside mount and $\frac{7}{8}$ " narrower for outside mount than the ordered width on the control side, allowing the wand to hang to the side of the shade. This may cause a light gap on black-out shades.
